Engineers vs. hurricanes: How to protect people, mitigate damage

Hurricane season is at hand, and unfortunately, outdated infrastructure, buildings falling below current codes, and increasing storm intensities can leave many coastal neighborhoods in dire straits. The good news? Engineers are making great strides in keeping residents safer while tamping down the accompanying damage and costs that these storms can cause with days of torrential rainfall, wind gusts topping 200 mph, and sea surges inundating coastal communities. The official Atlantic Ocean hurricane season begins June 1 and ends Nov. 30, and those along the seaboard are getting ready like never before. Click [this link](#) to read more.

June Events

- June 5th - National Running Day 
- June 14th - Flag Day 
- June 16th - Father's Day 
- June 20th - Summer Solstice
- June 23rd - International Women in Engineering Day 
- June 29th - INTERNATIONAL CAPS LOCK DAY

June Birthdays

- June 9th - Cole McCraw
- June 10th - George Ruchti
- June 16th - Leo Bartos
- June 19th - Rafael Ortega
- June 30th - Isabelle Clark
